QUARTERLY NEWSLETTER

The Future Looks Much Cleaner for Southern Alberta

IN THIS ISSUE:

SAEWA Performance in Brief
Engineering Highlights
Q3 Briefing Report Summary Delivery
Upcoming Events
AGM Notice
SAEWA Transformations...

The Southern Alberta Energy from Waste Association (SAEWA) is a coalition of waste management jurisdictions with an interest in implementing technologies to recover energy from residual waste and reduce long-term reliance on landfill disposal.

This quarterly newsletter provides updates on the project development milestones and is intended to keep our community, membership, and stakeholders apprised of project developments.

We invite you to please share our newsletter with others, and encourage them to subscribe.

To remain up to date with SAEWA current affairs, and go-forward opportunities and announcements, subscribe to this quarterly newsletter.

SAEWA PERFORMANCE IN BRIEF

2014 Milestones included successes such as engineering the road map for SAEWA along with the composition of core strategic and business development plans, establishing communication networks, project branding recognition, facilitation of stakeholder engagement sessions, production of an Initial Business Plan and Executive Summary, all serving as fundamental project design elements being executed in engagement of contract services of HDR Corporation. *(HDR is a Canadian Engineering Corporation recognized amongst Alberta industry & innovation stewardship standards to be strongly established in knowledge leadership of energy from waste facility design & planning expertise.)*

Road Map Documents prepared by HDR include:

- Site Process Plan
- Regulatory Process Plan
- Communication Plan
- Procurement Process Plan

Next steps include working with Brownlee LLP in development of an Integrative Governance Model. Noting that an Initial Questionnaire was submitted on behalf of SAEWA to ensure engagement of stakeholder member municipalities, and regional waste management entities in the Southern Alberta Regional Footprint, of which will result in surveying core data from the responses that will demonstrate interest in being factored into the next phase of engineering.

SPECIAL BULLETIN:

WATCH FOR ...

SAEWA Q3 BRIEFING NOTES

(EITHER IN ELECTRONIC OR MANUAL FORMAT) ARE AVAILABLE AT:

Contact: SAEWA, Administrator – Manager

email: sherry@saewa.ca
